EDUCATION

- Bachelor of Engineering (Computer Science and Engineering)
- SAL Institute of Technology & Engineering Research, Ahmedabad
- Gujarat Technological University (GTU)
- 2023-Present | Current Semester: 6 | CGPA : 8.30
- Expected Graduation : 2027
- Higher Secondary (Class 12 – Science)
- Sahjanand School of Achiever, Gandhinagar
- Board: GSEB
- Year of Completion: 2023
- Percentage: [66.32%]
- Secondary (Class 10)
- Shree Saminayan International School
- Board: GSEB
- Year of Completion: 2021
- Percentage: [73%]

SKILLS

Soft Skills

- Problem Solving
- Communication
- Team Collaboration
- Adaptability
- Time Management

Technical Skills

- Python
- Django
- React.js
- SQL
- Machine Learning
- REST APIs

LANGUAGES

Hindi , Gujarati , English

PROFILE

Focused CSE student skilled in Python, AI, and full-stack development with experience in real-world projects and hackathons. Looking to contribute technical and problem-solving skills as a Python Developer / AI Engineer in an innovative organization.

INTERNSHIP

Royal Technosoft Pvt.Ltd

- Acquiring hands-on experience in programming, software development, and project management
- Enhancing coding skills through specialized training programs at Royal.
- Focused on continuous learning to create innovative and efficient solutions.

PROJECTS

1. Solar DC Power Predictor (AI/ML Project)

Developed an AI/ML-based Solar DC Power Prediction system using Linear Regression, Pandas, NumPy, and Streamlit for real-time forecasting. Performed data preprocessing, feature engineering, model training, and prediction accuracy optimization for intelligent energy analytics.

2. BugShield AI Code Scanner

Developed an AI-powered static code analysis tool to detect security vulnerabilities, code smells, and secure coding issues across multiple source files. Implemented pattern-based scanning, automated remediation suggestions, and scalable modular architecture for secure software development.

3. Real-Time Chat Application

Developed a real-time chat application using Advanced Java (JSP, Servlet, JDBC) and MySQL with secure user authentication, session management, and instant messaging. Improved scalability, database connectivity, and response time for efficient concurrent user communication.

CERTIFICATIONS

1. Entrance Test By Infotact

- Python Development Entrance Test certification
- Score: 78 /100

2. Hackout'24 Hackathon Participation – DA-IICT

- Participated in national-level hackathon; built innovative solution under time constraints
- Improved problem-solving, teamwork, and rapid development skills

3. Node.js with Generative AI (GenAI) Workshop – SAL Institute

- Node.js, GenAI, REST APIs, backend development
- AI integration, prompt engineering, full-stack basics
